	4. Commitment to manage safety risks.			

_			<u> </u>
		5. Commitment for implementing and maintaining	
		safety systems.	
		6. Commitment on the acceptable and non-acceptable	
		behaviors for the Aerodrome Operator.	
		7. Commitment on individual and management	
		accountabilities and responsibilities for Safety	
		Management System.	
	•	8. Commitment on priority of flight safety in relation to	
		other priorities.	
		9. Commitment on compliance with safety standards	
		and regulatory requirements.	
		10. Commitment on encouraging the reporting of safety	
		related matters.	
		11. Commitment on ensuring sub-contractors meets safety	
		standard and requirements.	
	2	SAFETY RISK MANAGEMENT	
		Hazard identification process documented with formal means	
	2.1	of collection, record, and analyze including an effective	
		feedback process and reviewing process.	
		Process to describe and analyze the system used in identifying	
		hazards which includes:	
		(1) Function and purpose of the system.	
	2.2	(2) The system's operating environment.	
		(3) An outline of the system's processes and procedures.	
		(4) The personnel, equipment, and facilities necessary for	
		operation of the system.	
-	2.3		
-	2.3	Processes to analyze safety risk associated with the hazards.	
	. .	process for conducting risk assessment for the determination	
	2.4	of acceptable safety risk which includes Description of method	
<u> </u>		used for risk identification.	
	2.5	Processes to develop safety risk controls that are necessary	
L	2.0	as a result of the safety risk assessment process.	
		Risk assessment and mitigations processes documented with	
		formal means of collection, record, categorization (against	
	2.6	probability, severity and exposure) of safety data and analyze	
		for mitigation purpose including an effective feedback	
		process.	
	2.7	Description of how risks are mitigated and controlled and a	
	2.7	description of safety risk control development method.	
	3	SAFETY ASSURANCE	
		Process to develop and maintain the Safety Performance	
		Monitoring and measurement process documented to ensure	
3 1	3.1	compliance with the Safety Policy and Objectives with focus	
	٠.1	on adequate staff competencies, compliance with approved	
		procedures and instructions.	
\vdash	2.2	<u> 1</u>	
-	3.2	A Defined schedule and process for the internal safety audits.	
	, ,	Process for Management of Change is documented including	
	3.3	identification of external and internal factor that may affect the	
\perp		safety of operations.	
		Means for Continuous Improvement of the Safety System are	
		identified and established including Internal Auditing Process,	
	3.4	Third Party Oversight, and personnel performances which	
	J. ⊤	include:	
		Description of internal safety auditing process and review	
		schedule.	
	3.5	A method for all elements of SMS assurance.	
	3.6	A method for defining SPIs and SPTs.	
		Description for setting safety performance targets and	
i	3.7	indicators and how performance against targets is assessed.	
	י /.ר		1
	3.7	mateurers and new performance against targets is assessed.
